

LanTech Technologies, LLC

Secure IT Infrastructure • Systems Engineering • Mission-Critical Operations

CORE COMPETENCIES

- Windows & Linux administration (classified & unclassified)
 - Active Directory design, migration, hardening, and GPOs
 - Tier I–III support for 24/7/365 environments
 - Hyper-V and VMware ESXi / vCenter
 - HA/DR architectures and capacity planning
 - Dell PowerEdge deployment and lifecycle management
 - STIGs, patching, compliance, and system hardening
 - Secure enclave operations (IC & DoD)
 - Telecommunications and secure transport systems
-

SUBSIDIARY & FACILITY CLEARANCE

KaRDS, a wholly owned subsidiary of LanTech Technologies, LLC, holds the active Facility Clearance (FCL) and provides mission-critical support services. Classified work in support of LanTech Technologies contracts is executed under KaRDS' cleared facility, security processes, and compliance framework.

CERTIFICATIONS & CREDENTIALS

- TS/SCI (Full-Scope Polygraph)
 - Security+ | Network+ | ITIL
-

RELEVANT EXPERIENCE

Enterprise & Identity Infrastructure

- Supported enterprise AD environments serving 50,000+ users
- Led large-scale AD migrations with minimal downtime

Virtualization & Data Center Engineering

- Built and maintained Windows & Linux VMs
- Designed HA environments for classified and unclassified workloads

Secure Data Flow & Monitoring

- Engineered secure data pipelines using Apache NiFi
- Implemented Splunk-based monitoring and analytics

SENSITIVE BUT UNCLASSIFIED

Network & Systems Operations

- Cisco switches, routers, and ASA firewalls
 - Tier III troubleshooting across global, mission-critical environments
-

DIFFERENTIATORS

- Key personnel experience supporting IC and DoD programs including AT&T Government Solutions, COMBATANT PIRATE / TOMS, BLUE GIMAL, PDF, TUMBLEMONKEY, and PATHMASTER III
 - TS/SCI-cleared leadership with over 25 years' experience
 - Proven OCONUS and covert-site operations
 - Hands-on engineers — not staff augmentation
 - End-to-end delivery: Design → Build → Secure → Operate → Sustain
 - Veteran-owned, mission-driven execution
-

KEY PERSONNEL

Dantae Scott – Co-Founder / Senior Systems Engineer

Senior Systems Administrator and Data Flow Engineer with extensive IC, DoD, and OCONUS experience. SME in Active Directory, virtualization, and secure enterprise environments.

David Miller – Co-Founder / Senior Network & Systems Engineer

Senior Network and Systems Engineer with 13+ years supporting classified environments. Expert in Windows systems and Tier III operations. TS/SCI with Full-Scope Polygraph.
